SUMMARY

Forward-thinking and detail-oriented MCA graduate with real-world internship experience in full-stack development. Skilled in crafting scalable web apps using React, Node.js, Tailwind CSS, and MySQL. Passionate about clean code, great UI/UX, and building impactful digital experiences. Looking to bring technical creativity and problem-solving to a high-energy development team.

EXPERIENCE

Frontend Developer

Tech Amica Private Limited Malkapur

Jan 2025 – Apr 2025

- Developed responsive user interfaces using React and Tailwind CSS, ensuring cross-device compatibility and smooth UX.
- Collaborated with designers and backend developers to integrate APIs and implement dynamic frontend features.
- Participated in Agile development cycles, daily stand-ups, and sprint reviews to maintain project momentum.
- Built reusable React components and styled layouts with Tailwind CSS to accelerate development efficiency.
- Debugged and optimized UI elements, improving performance and load times.

PROJECTS

GreenMart-Online Grocery Store : React | TailwindCSS | Node.js | MySQL

Frontend Developer (Full-Stack Team Project) • [Link](#)

- Collaborated in a full-stack development project, taking complete ownership of the frontend using React.js and Tailwind CSS.
- Built **responsive** UI components for product listings, filters, cart, checkout flow, and user profile management.
- Integrated frontend with **backend APIs using Axios** to fetch real-time product, order, and user data.
- Implemented session-based cart logic and prevented duplicate product additions during the shopping session.
- Ensured smooth user experience through conditional rendering, protected routes, and clean responsive design.
- Tech Stack: React.js, Tailwind CSS, Axios (Frontend) | Node.js, MySQL (Backend – team handled)

Grocery Web Application (MDailyFresh) • [Link](#)

- Developed a **responsive grocery shopping web app** using **React + Tailwind CSS**, ensuring smooth UI across devices.
- Implemented **category-based product listing** (Fruits, Vegetables, Dairy, etc.) with tab navigation.
- Designed **reusable UI components** (cards, buttons, navbar, footer) for scalability and maintainability.
- Added **hover effects & shadows** for interactive and modern user experience.
- Integrated **Netlify for continuous deployment**, syncing directly with GitHub.
- Maintained **clean Git commits**, showcasing development progress with version control.

Weather Forecast Web App : HTML | CSS | JavaScript • [Link](#)

- Built a weather application that allows users to search and view real-time weather info. for any city using the **OpenWeatherMap API**.
- Integrated **asynchronous API calls** to fetch weather data including temperature, humidity, wind speed, and weather conditions.
- Implemented responsive and user-friendly error handling to display messages for invalid city inputs.
- Dynamically updated the UI with corresponding weather icons (e.g., cloudy, rainy, clear) based on API responses.

Rock Paper Scissors Game : HTML | CSS | JavaScript • [Link](#)

- Implemented core game logic with conditional checks and **Math.random()**.
- core game logic with **randomized AI moves** and dynamic score tracking
- Designed a clean, responsive UI with hover effects and real-time result display
- Deployed the game on Netlify for public access and live interaction

CERTIFICATION

Professional Frontend Course in ReactJS – Data Council, Pune

Mar 2024 | Pune

- Covered frontend technologies including HTML, CSS, JavaScript, Bootstrap, React, and Redux.
- Built multiple UI components and single-page applications using React and Redux.
- Emphasized responsive design principles, state management, and REST API integration.

EDUCATION

Master in Computer Application (MCA) • Institute of Management And Research - CGPA: 8.04

July 2025

Bachelor in Computer Application (BCA) • Moolji Jaitha College - CGPA: 9.20

2023

HSC • Dr. Annasaheb G.D. Bendale Mahila Mahavidyalaya, Jalgaon

2020

SSC • Raosaheb Rupchand Vidyalaya, Jalgaon

2018

SKILLS

Frontend: HTML, CSS, JavaScript, Tailwind CSS, React

Backend: Node.js, Express.js

Database: MySQL, MongoDB Atlas

Tools: Git, GitHub, VS Code, Postman

Methodologies: Agile (Scrum)
